Quick-Fix

Quick-Fix is a new and innovative accessory for fastening an instrument quickly and securely on a tripod.

Once the Quick-Fix baseplate is mounted on a tripod and the Quick-Fix adapter is screwed into the 5/8" thread, the instrument can be securely locked on the tripod and released simply by throwing the lever. Again and again - quick, easy and reliable.

Quick-Fix fits to any tripod and instrument and speeds up the process of setting up an instrument significantly.

Quick-Fix Ref.-No. 572111
